Company Introduction

Sealine Marine Services FZE Sealine Marine Services FZE is an emerging service provider of engineered solutions to the oil and gas, marine and construction industries in United Arab Emirates. The company provides various kind of services to its national and international clients through its branches and offices.

The management's operational strategy, flexibility and resources enables Sealine to reciprocate with both the Marine and Industrial sectors through its various divisions and branches. To support its vigorous strategy and customer satisfaction in terms of quality the company continues to strengthen its technical expertise, staff and support structure, thus complementing activities towards achieving it's well defined goals. Sealine maintains a well-equipped workshop capable to provide on-site and in-shop services through its highly qualified engineering teams.

Company Profile

Sealine is a Marine construction company offering key projects specializing in turn-key marina design, fabrication, construction and installation. As a part of Marina works, Sealine also offers a wide range of Services in MEP Engineering domain which includes Mechanical, Electrical & Plumbing works. We offer full service from site assessment to concept design and actual project documentation, design and execution.

Sealine is an ISO certified organization with qualified marina professionals, fabricators, welders, Electricians and Carpenters. Sealine is located in the Emirates of Sharjah and Ajman of United Arab Emirates with total infrastructure of 12,500 square meter areas. Sealine undertakes Mechanical, Electrical and Fabrication jobs from the marine industry.

Mission Statement

Sealine understands that every Marine project is different and has different requirements. Sealine with its established associate companies have the industrial knowledge and experience to provide operational, technical support and full project management expertise.

Co-ordination with reliable transporting companies assures our products reach our customers worldwide safely.

Vision Statement

Our Vision is to provide customized business solutions to the current market need and to prepare ourselves timely to produce, deliver suitable products with wide range of diversity.

ORGANIZATION CHART

CURRICULUM VITAE
SUNIL KUMAR- OPERATIONS MANAGER

SUNIL KUMAR KARUVATHAN

Mobile No. -	+971551802579	E-Mail ID.-	sunil@sealineemc.com
Date of Birth -	15 Jan 1976	Passport No.-	K0512877 (15 NOV 2021)
Marital Status -	Married	Driving License -	UAE (JUN 2025)

OBJECTIVE-

To be committed to the task at hand & do it confidently and effectively, as an individual or in a group.

SYNOPSIS-

A dedicated professional with 20+ Years' Experience & highly conversant in Project Management, Capability Evaluation of various design and Operations in to Marine & Marina Industries

KEY SKILLS-

Project Management, Expediting, Procurement, Quality Oriented Leadership, Solid Integrity, Presentation Skills and Process & System Development. Accountable and Well Organized.

ACADEMIC PROFILE-

- Diploma in Mechanical Engineering from Kerala India
-

CURRENT EMPLOYMENT –

May 2015 to till date : **SEALINE MARINE SERVICES FZE**
Position : **OPERATIONS MANAGER**

Responsibilities

- Responsible for controlling the Site Construction activity towards Civil, Mechanical, Electrical disciplines till the Commissioning Stage.
- Identification of HAZOP that could involve in the Project and optimizing the Commercial Issue involved and fixing the Hazard identified.
- Leading project planning sessions
- Coordinating staff and internal resources
- Managing project progress and adapt work as required
- Ensuring projects meet deadlines
- Managing relationships with clients and stakeholders
- Designing and signing off on contracts
- Overseeing all incoming and outgoing project documentation
- Participating in tender process i.e. design, submission and review
- Designing risk mitigation plan
- Conducting project review and creating detailed reports for executive staff
- Optimizing and improving processes and the overall approach where necessary
- Securing growth opportunities and initiating new projects
- Managing large and diverse teams

May 2018 till date	Sealine Marine Services FZE	Contracts & Systems Manager

CURRENT EMPLOYMENT –

March 2018 to till date : Sealine Marine Services FZE
Position : Contracts & Systems Manager

Responsibilities

- Preparing tenders for clients and commercial bids to help bring in new business
- Developing and presenting project proposals
- Meeting with clients to find out their requirements
- Producing plans and estimating budgets and timescales
- Discussing, drafting, reviewing and negotiating the terms of business contracts
- Agreeing budgets and timescales with the clients
- Managing construction schedules and budgets
- Dealing with any unexpected costs
- Attending site meetings to monitor progress
- Acting as the main point of contact for clients, site and project managers
- Working with third parties to ensure that everyone understands their roles and responsibilities
- Making sure construction projects meet agreed technical standards
- Liaising with technical and financial staff, sub-contractors, legal teams and the client's own representatives
- Overseeing invoicing at the end of a project
- Working on-site and in an office.

EXPERIENCE AS AN INSPECTION ENGINEER - Welding

- Review of project method statement, ITP and procedure for welding
- Incoming material Inspection of project materials, MTC review as per the specification requirements.
- Witness and certification of PQR and Welder / Welding Operator qualification test certification.
- Material identification and Fabrication inspection during in process inspection of Welding / Painting application visual inspection, dimensional control and report review
- Review of NDT RT films as per the code requirements, Witness PT, MPI & UT inspection review of the reports and sign off.
- Monitoring / Review of Welder performance and ensure the repair rate of Welders /Welding operators are within the project requirements.
- Review and clearance of partial spool package for Hydro test and final release.
- Witness the PWHT, Hardness Test, and Hydro testing of spools of Pre fabricated spools.
- Performing receiving material inspection, witnessing transfer of heat no. for material traceability;

- Witnessing destructive testing such as Mechanical Tests, Chemical Tests etc for the sampled material at Lab.
- Witnessing Procedure Qualification and Welder Qualification for the projects.
- Perform review of drawings, inspection of fit up, dimensional inspection etc for piping, structurals.
- Perform visual Inspection and welding inspection of different components such as piping and Structural welds, Skids etc.,
- Check consumables documentation i.e. type of electrodes, filler wires, fluxes, shielding and backing gases etc;
- Check preheat & inter pass temperatures, inter run cleaning, control of distortion etc. during the welding process etc;
- Check the root, subsequent runs, welding current and voltage, chipping, grinding, gouging etc;
- Perform weld defect identification & acceptability like film interpretation with reference to ASME Standards;
- Witnessing of NDT on welded joints for structure, piping, pipelines etc and conduct of tests such as PMI and Hardness Test;
- Performing line walk down and issuance of punch points;
- Issuing release for hydro test after closure of A punch points;
- Witnessing Hydro test for pipe spools.
- Inspection on seal welds for the threaded joints once after completion of hydro test;
- Performing reinstatement walk down and issuance of punch points;
- Issuing release for commissioning after closure of B punch points;
- Witnessing pre commissioning activities like nitrogen purging;
- Closure of punch points and reviewing of final hand over dossier;

Experience as a Painting / Coating Inspector

- Witnessing surface preparation, salt contamination test, profile check, dust test, MEK test, visual inspection, appearance, color code and DFT check for painting of piping, structural, tanks;
 - Witnessing surface preparation, profile check, visual inspection, appearance, DFT check, Hammer Test and Knife Test for Galvanizing of Structural;
 - To ensure the use of correct surface preparation and painting materials in compliance with the approved procedures.
 - Ensuring atmospheric condition before proceeding with the Blasting.
 - To ensure all the blasting and painting items has QC release.
 - Monitor Paint storage areas to ensure that all painting materials are received and stored in accordance with paint manufacturer recommendations.
 - Ensure that the painting is not applied during inclement weather conditions and Relative Humidity, Dew point and Substrate Temperature are in accordance with the paint manufacturer recommendation
 - Monitoring the minimum and maximum time lapse between the coats as per the manufacturer recommendation in order to achieve complete chemical and mechanical bonding.
 - Witness of Pull of test/Cross Cut test in order to ensure that proper adhesion
 - Painting procedures corresponds to System & Data sheet shall endorse to client for review.
 - Endorsed certificates of pre-qualified blaster/painter for Client's approval.
 - Perform visual examination to test panels, surfaces after paint application on each stage.
 - Check DFT and perform holiday test for underground piping and tank linings as per specification requirement.
 - Ensure blasting, painting and inspection equipment's calibration and certificates validity.
 - Witnessing of the joint coating activities, HSS.
 - Verifying of the MSDS of the painting materials used are in line with Project Specifications.
-

CURRICULUM VITAE – DESIGN ENGINEER

NATARAJAN ALAGAPPAN

Summary

- Mechanical Engineer professional with more than 5 year experience in Structural drafting field and Marina Structural design. Expertise in Gangway and Pontoon drafting and 1 year and 8 Months of experience in coal loading and unloading sector in area of operation and maintenance in M/S Chettinad International Coal Terminal Chennai.
- Highly responsible, creative, initiative and punctuality. I responsibly assume the challenges and goals that the organization assigns me, adaptability to change, staff management, and ability to work in teams.
- Expertise in AutoCAD, Staad Pro, Autodesk inventor & Basic Solid works.
- More interested to learn and gain knowledge in working field.

Working Experience

1. **Company Name:** Sealine Marine Services L.L.C

Designation: Design Draughtsman Engineer

Experience: 5 years (Presently Working)

Work Profile:

Leading Marine Fabrication Company in U.A.E for more than 5 years, Deals with Design and Fabrication of Marina Gangways, Pontoons, Floating structure, Bollards and Cleats. Overall Manufacture of Marine oriented structures and products.

- Solid working experience in design and drafting of aluminum gangways and structures.
- Experience in structural verification calculations of gangways and floating units.
- Worked on various big projects like UAQ Creek Development, Dubai Harbor Marina, Floating Seahorse, RTA Dubai Marina projects, Al Reem Island development project in Abu Dhabi, Sea Palace Abu Dhabi.

Area of Responsibility:

- Design of Aluminum Gangways , Aluminum Pontoons , Aluminum access platforms based on Australian codes AS 3692 - 2001 - Marine guidelines , Dubai guidelines of marinas, DOT Abu Dhabi .
- Analyzing Aluminum structures using Staad pro software, optimizing section sizes for structures and providing a better & cost effective structure.
- Designing of Mechanical Steelworks based on Australian code AS 3990 and Designing of structural aluminum based on AS1664.2 Australian standard.
- Preparing shop drawings of Gangway, Pontoon and Marine structures from plan drawings.
- Preparing Design documents and Design submittals to client.
- Addressing the comments from clients regarding design drawings and following up the clients for design approvals.

Achievements in Present and Past Company

- Implemented Kaizen in present company and Implemented tools management.
- Implemented 3 Days meeting in production and Design department.
- Represented as Sealine Team player in Bukathir Cricket League conducted by Sharjah cricket stadium.

Professional Qualification

Bachelor of Engineering (B.E), Mechanical Engineering 2010 – 2014
Anna University - 7.4 CGPA (Scale of 10)

Higher Education in School

Higher Secondary Education (Plus 2) 2008 – 2010
Alagappa Matriculation Higher Secondary School – 70.10%

School Secondary Leaving Certificate (SSLC) 2008
S.B.O.A Matriculation Higher Secondary School -73.40%

Study Integrated Industrial Exposure

- Undergone In plant Training in the Electrical/Mechanical/Electronics division of Mechanical Engineering Department in Chennai Port Trust, December 2011.
- Undergone In plant Training in CHETTINAD MORIMURA SEMICONDUCTOR MATERIAL PVT.LTD, January 2013
- Undergone Full Time Course of Repair and Maintenance of Petrol Engine in Advance Training Institute (Government of India), August 2013
- Undergone Full Time Course of Solid Works-2012 in Advance Training Institute (Government of India), December 2013

Technical & Computing Skills

Engineering Software Known: AutoCAD, Staad Pro, Autodesk inventor & Solid works.

Basic Software: Microsoft office package.

Personal Information

Passport No- NO668532

D.O.B -19th March 1993.

Marital Status- Married.

Languages Known- English, Tamil, Hindi.

Nationality - Indian

Present Residence - Ajman, U.A.E

Interest-Listening to Music & Travelling and Playing Cricket.

Driving License – UAE & India.

RESPONSIBLE FOR:

- ❖ Responsible for controlling the site construction activity towards Civil, Mechanical, Electrical disciplines till the commissioning stage.
- ❖ Planning & executing daily activities, allocation of works.
- ❖ Arranging man power, machineries & materials according to the timely requirements.
- ❖ Monitoring Subcontractors on daily basis on their daily progress and providing assistance when and where required.
- ❖ Monitoring the works in Quality & Quantity aspects.
- ❖ Leading project planning sessions and managing project progress and adapt work as required.
- ❖ Reinstatement work, as built drawings, as built reports, Quantity works & invoice work.
- ❖ Monitor the day to day progress.
- ❖ Reporting on all aspects of works to senior management.
- ❖ Assists in preparation and implementation of Project Execution Plan (PEP).
- ❖ Attends the Weekly Progress Meetings (Internal as well as with Client) and assist in preparation of Minutes of Meetings.
- ❖ Monitors work in progress and prepares weekly report of the status of each Assignment.
- ❖ Ensuring all procedures and calculations are submitted to the client for review and approval.
- ❖ Coordinates materials and assists in the logistics, its shipment and receipt at Construction site.
- ❖ Coordinates with all project related personnel (onshore and offshore) on day-today.
- ❖ progress of work activities, procurement and operations to ensure timely Completion of the project.
- ❖ Provide full support as required by the Management and PMT for all projects.
- ❖ All municipality and Trakhees inspection of the Projects.

KEY DELIVERABLES:

- ❖ Execution of the work in the capacity of Contractor.
- ❖ Reviewing Method statements, Specifications, Material approval and construction procedures etc.
- ❖ Conducting weekly safety & site Inspections.
- ❖ Holding meetings with contractors & co coordinating with Clients etc.
- ❖ Proficient with present construction methodologies, system in compliance with Safety standards and Quality requirements.
- ❖ Achieving cost effective execution of site activities & timely delivery of the assigned job.
- ❖ Motivate personnel to development and maintenance of quality management system and procedures.
- ❖ Coordinate on quality matters with project team, customers, suppliers and certification authority representatives.

COMPUTER SKILLS:

- ❖ Diploma in AUTO CAD-2010.
- ❖ Diploma in RIVET ARCHITECTURE-2014.
- ❖ MS-Office.

SEALINE YARD FACILITY MANAGEMENT Engineering

The base of Sealine Marine Service FZE, is our innovative Engineering Department. Right from the beginning of each project, engineering team will study the scope of the Work with their vast industry knowledge and experience to ensure that the end product is the best & suits to the Client's requirement. Sealine has been using the most modern engineering software and equipment's in order to provide the necessities in an efficient way.

FABRICATION FACILITY

Sealine owns a land area of 5,000 square meter, having a total of 2 large scale covered production bays with a capacity of 500 Square meter with state of the art equipment's, machinery & Infrastructure, which makes us prominent in the field of fabrication.

These two covered production bays are designated accordingly for the fabrication of Stainless Steel Products, Aluminium Products.

Well defined Machine shop for machining and cutting process with in the yard, which are occupied with the necessary tools and equipment's that make the fabrication works ease.

STORAGE FACILITY

In addition to the above mentioned fabrication capacity, Sealine own another two yard with in Hamriyah Free Zone- Phase 2, Facility with an land area of another 7,500 square meter exclusively for Storing of materials and fabricated products.

MEP SERVICES

Sealine have a vast experience and hands on experience in Mechanical, Electrical and Plumbing works especially in Marina and Floating Structures.

Our Services Includes

- MEP Design & Consulting
- Cable Laying
- Power Distribution Systems
- Lighting Systems
- Fire Detection and Alarm
- Small Power & Control System
- Data & Structured Cabling Installations
- Communication Systems
- Sewage & Bilge Systems
- Fuel Pumping & Dispensing Systems

Sealine Marine Services FZE is engaged in a business of Marina Construction works as a **MANUFACTURE OF ALUMINIUM BOATS AND MARINAS, STEEL FABRICATION, and INSTALLATION & ERECTION OF MARINAS AND STEEL PRODUCTS AND ELECTROMECHANICAL EQUIPMENT INSTALLATION & MAINTENANCE**. We shall remain committed to protection of the Quality, Health and Safety of our staff, employees, visitors, subcontractors and the community at large and protect the physical environment in which the company activities are carried out.

The Management and Staff of Sealine Marine Services FZE are committed to:

- Appropriate objectives and targets are established and QHSE management programs are formulated.
- Ensuring the safety and welfare of our staff and the protection of our assets.
- Shall be determined to fulfill our commitments and services that meet the needs and expectations of our customers.
- Ensuring the prevention of any impact on the environment resulting from our actions.
- Complying with all relevant Health & Safety, Environmental legal laws and other regulatory requirements.
- To identify the hazards (the potential for harm) assess the risks (the likelihood of that harm being realized) and manage those risks.
- To maintain work equipment in a safe state and provide both safe systems of work and a safe working environment for employees and all who work on our behalf.
- Periodically review the suitability, adequacy and effectiveness of the QHSE management system.
- Strive to prevent any incidents, occupational illness or exposures which could cause harm to people and damage to properties and assets and the environment and maintain Emergency Plans to reduce risks and adverse effects.
- Make every effort to protect the environment and prevent pollution, to minimize consumption of materials, to promote reuse and recycling of wastes and adopt best practice on waste management.
- Strive to achieve continual improvement through implementation and review of the QHSE management system and related performance.
- To prevent accidents and cases of work-related ill-health.
- Policy will be reviewed periodically and will be available for employee and public.
- Consulting with each employees of the Organization for any valuable revisions to be included in the Policy
- Comply with the applicable local and federal regulations & Client Requirement, customer requirements and to maintain a safe and pollution-free operating practice.

These commitments will be achieved by:

- Establishing and maintaining a documented Health, Safety and Environmental Management System
- Ensuring procedures, program and guidelines are in place to support the HSEMS.
- Providing the necessary HSE resources for the implementation of the Management System
- Communicating the Company's QHSE policy and Objectives to relevant interested parties including its employees, stake holder, clients and customers.
- Setting, monitoring and reviewing HSE targets and objectives & Complying with QHSE Policy.
