Company Introduction

Sealine Marine Services FZE is an emerging service provider of engineered solutions to the oil and gas, marine and construction industries in United Arab Emirates. The company provides various kind of services to its national and international clients through its branches and offices.

The management's operational strategy, flexibility and resources enables Sealine to reciprocate with both the Marine and Industrial sectors through its various divisions and branches. To support its vigorous strategy and customer satisfaction in terms of quality the company continues to strengthen its technical expertise, staff and support structure, thus complementing activities towards achieving its well-defined goals. Sealine maintains a well-equipped workshop capable to provide on-site and in-shop services through its highly qualified engineering teams.

Company Profile

Sealine is a Marine construction company offering key projects specializing in turn-key marina design, fabrication, construction and installation. As a part of Marina works, Sealine also offers a wide range of Services in MEP Engineering domain which includes Mechanical, Electrical & Plumbing works. We offer full service from site assessment to concept design and actual project documentation, design and execution.

Sealine is an ISO certified organization with qualified marina professionals, fabricators, welders, Electricians and Carpenters. Sealine is located in the Emirates of Sharjah and Ajman of United Arab Emirates with total infrastructure of 12,500 square meter areas. Sealine undertakes Mechanical, Electrical and Fabrication jobs from the marine industry.

Mission Statement

Sealine understands that every Marine project is different and has different requirements. Sealine with its established associate companies have the industrial knowledge and experience to provide operational, technical support and full project management expertise.

Co-ordination with reliable transporting companies assures our products reach our customers worldwide safely.

Vision Statement

Our Vision is to provide customized business solutions to the current market need and to prepare ourselves timely to produce, deliver suitable products with wide range of diversity.

EDUCATION

- Bachelor of Science - Electrical Engineering

SEALINE YARD FACILITY MANAGEMENT Engineering

The base of Sealine Marine Service FZE, is our innovative Engineering Department. Right from the beginning of each project, engineering team will study the scope of the Work with their vast industry knowledge and experience to ensure that the end product is the best & suits to the Client's requirement. Sealine has been using the most modern engineering software and equipment's in order to provide the necessities in an efficient way.

FABRICATION FACILITY

Sealine owns a land area of 5,000 square meter, having a total of 2 large scale covered production bays with a capacity of 500 Square meter with state-of-the-art equipment's, machinery & Infrastructure, which makes us prominent in the field of fabrication.

These two covered production bays are designated accordingly for the fabrication of Stainless-Steel Products, Aluminium Products.

Well defined Machine shop for machining and cutting process with in the yard, which are occupied with the necessary tools and equipment's that make the fabrication works ease.

STORAGE FACILITY

In addition to the above-mentioned fabrication capacity, Sealine own another two yard with in Hamriyah Free Zone- Phase 2, Facility with an land area of another 7,500 square meter exclusively for Storing of materials and fabricated products.

MEP SERVICES

Sealine have a vast experience and hands on experience in Mechanical, Electrical and Plumbing works especially in Marina and Floating Structures.

Our Services Includes

- MEP Design & Consulting
- Cable Laying
- Power Distribution Systems
(Power Pedestal / Distribution Board)
- Lighting Systems (Light Pedestal)
- Fire Detection and Alarm (SOS Pedestal)
- Water Services (Water Pedestal)
- Data & Structured Cabling Installations
- Communication Systems
- Sewage & Bilge Systems
- Fuel Pumping & Dispensing Systems

Sealine Marine Services FZE is engaged in a business of Marina Construction works as a **MANUFACTURE OF ALUMINIUM BOATS AND MARINAS, STEEL FABRICATION, and INSTALLATION & ERECTION OF MARINAS AND STEEL PRODUCTS AND ELECTROMECHANICAL EQUIPMENT INSTALLATION & MAINTENANCE**. We shall remain committed to protection of the Quality, Health and Safety of our staff, employees, visitors, subcontractors and the community at large and protect the physical environment in which the company activities are carried out.

The Management and Staff of Sealine Marine Services FZE are committed to:

- Appropriate objectives and targets are established and QHSE management programs are formulated.
- Ensuring the safety and welfare of our staff and the protection of our assets.
- Shall be determined to fulfill our commitments and services that meet the needs and expectations of our customers.
- Ensuring the prevention of any impact on the environment resulting from our actions.
- Complying with all relevant Health & Safety, Environmental legal laws and other regulatory requirements.
- To identify the hazards (the potential for harm) assess the risks (the likelihood of that harm being realized) and manage those risks.
- To maintain work equipment in a safe state and provide both safe systems of work and a safe working environment for employees and all who work on our behalf.
- Periodically review the suitability, adequacy and effectiveness of the QHSE management system.
- Strive to prevent any incidents, occupational illness or exposures which could cause harm to people and damage to properties and assets and the environment and maintain Emergency Plans to reduce risks and adverse effects.
- Make every effort to protect the environment and prevent pollution, to minimize consumption of materials, to promote reuse and recycling of wastes and adopt best practice on waste management.
- Strive to achieve continual improvement through implementation and review of the QHSE management system and related performance.
- To prevent accidents and cases of work-related ill-health.
- Policy will be reviewed periodically and will be available for employee and public.
- Consulting with each employees of the Organization for any valuable revisions to be included in the Policy
- Comply with the applicable local and federal regulations & Client Requirement, customer requirements and to maintain a safe and pollution-free operating practice.

These commitments will be achieved by:

- Establishing and maintaining a documented Health, Safety and Environmental Management System
- Ensuring procedures, program and guidelines are in place to support the HSEMS.
- Providing the necessary HSE resources for the implementation of the Management System
- Communicating the Company's QHSE policy and Objectives to relevant interested parties including its employees, stake holder, clients and customers.
- Setting, monitoring and reviewing HSE targets and objectives & Complying with QHSE Policy.
